

PETZL RESCUE PULLEY

https://www.securhit.com/en/pulleys-and-ascenders/683-998-poulie-petzl-rescue.html#/914-couleur_p50-rouge

High-performance PETZL RESCUE pulley, specially designed for rescue operations. Ideal for maneuvering heavy loads or for intensive use.

Description

In rescue operations, optimal organization of emergency equipment is crucial to efficiency in the field. The equipment used to move them must combine robustness and reliability.

PETZL's RESCUE pulley is specially designed to assist rescue professionals. It makes it easier to handle heavy loads or to use intensively. And more:

- A large-diameter sheave mounted on sealed ball bearings (very high efficiency)
- Up to three carabiners can be fitted to simplify load handling.

The pulley is available in two colors: red and black.

Sheave diameter: 38 mm.

Maximum working load: $4 \text{ kN} \times 2 = 8 \text{ kN}$.

Caractéristiques

- Weight : 185 g
- Certifications : CE EN 12278, NFPA 2500 General Use, UKCA, XF 494: FZL-H-T 9.5/13
- Compatibilité corde : 7 à 13 mm
