Semi-static PETZL ASAP'AXIS BLANC rope with standard diameter. An equipment designed with a sewn termination and an integrated energy dissipator for use with an ASAP mobile fall arrester.

Description

Safety systems are essential when working at height. PETZL's ASAP'AXIS BLANC semi-static rope is one of the best ways to protect workers. With its sewn termination and built-in energy dissipator, it can be used with an ASAP mobile fall arrester for maximum safety in the field.

- Easy handling, thanks to standard diameter
- Heavy-duty design with polyamide core, polyester sheath and special braiding
- EverFlex technology for long-lasting maneuverability
- Sewn termination with STUART element to hold the connector in position and simplify handling
- A protective fabric sleeve to prevent abrasion on the energy absorber

PETZL's ASAP'AXIS BLANC rope is available in six lengths: 10, 20, 30, 40, 50 and 60 m.

Strength with sewn termination: 22 kN
Impact force (factor 0.3): 5.2 kN
Construction: 32 spindles
Sheath percentage: 41

Caractéristiques

- Diameter : 11 mm
- Materials : polyester, polyamide
- Certifications : CE EN 1891 type A, UKCA
