

PETZL STEF ACCESSORY

https://www.securhit.com/en/bags-and-storage/698-1081-accessoire-petzl-stef.html#/997-modele_s059-pour_nest_a_partir_de_2020

PETZL STEF accessory, terrain-dependent tilting device for NEST stretcher before or from 2020 depending on model. With three Am'D TRIACT-LOCK connectors and a swivel.

Description

The PETZL STEF accessory is an essential piece of equipment for the safe evacuation of victims. It makes it easy to tilt the NEST stretcher with reliable elements, depending on the terrain (horizontal, vertical or oblique position).

- Three Am'D TRIACT-LOCK connectors with CAPTIV retaining bar, ensuring automatic locking of connection points.
- A swivel to steer the stretcher with great precision
- Sm'D connector for horizontal stretcher positioning
- Color-coded to identify direction of use at a glance
- Can be connected to a JAG SYSTEM 2 m reeving kit for even greater tilting precision

Model S059BA00: compatible with NEST stretcher before 2020 (reference S61)
