PETZL PULLEY FOR SINGLE DESCENDER

https://www.securhit.com/en/pulleys-and-ascenders/702-poulie-de-remplacement-descendeur-simple-petzl.html

PETZL spare pulley for SIMPLE caving descender. A lightweight, heavy-duty accessory to extend the life of your SIMPLE descender.

Description

You frequently use the PETZL SIMPLE caving descender and need to change the pulley. Over time, the pulley needs to be replaced to ensure optimum performance. The PETZL replacement pulley is specially designed for the SIMPLE caving descender.

The pulley replaces only the lower pulley of the older-generation SIMPLE descender, model D04. However, it can be installed in place of the upper or lower pulley of the new-generation SIMPLE descender (part no. D004AA00).
