PETZL PARTNER PULLEY

https://www.securhit.com/en/pulleys-and-ascenders/706-poulie-petzl-partner.html

Ultra-compact, high-performance PETZL PARTNER pulley, ideal for everyday work or on-site rescue. Extremely lightweight, practical equipment with excellent performance.

Description

Moving around with safe equipment remains essential when working and intervening at height. PETZL's PARTNER pulley combines practicality and reliability for everyday work.

- A compact, space-saving format, practical for technical rescues
- Ultra-light equipment
- Easy to set up for zip-lining or hauling systems
- High efficiency (91%) thanks to waterproof ball-bearing sheaves
- Compatible with ropes between 7 and 13 mm in diameter (a rope of too small a diameter can get caught between the sheave and the flange)

Maximum working load: 2.5 kN x 2 = 5 kN.
Sheave diameter: 25 mm.

Caractéristiques

- Weight : 56 g
- Certifications : CE EN 12278, UKCA
