## Description

Shine brightly during your nocturnal activities! Night hikes, bivouacs, wildlife watching... The TIKKA headlamp from PETZL lets you see far with its 350 lumens. We love its comfort, practicality and durability.

- Pleasant illumination thanks to a wide beam and homogeneous light
- Three types of white light: MAX BURN TIME (up to 110 hours of runtime), STANDARD (up to 12 hours of runtime) and MAX POWER (up to 2 hours of runtime).
- Red light ideal for better visibility in the dark, avoiding glare and limiting light pollution
- Low weight: 94 grams
- A single button to change light type
- Base plate makes it easy to direct the light where you need it
- Battery level indicated by a signal when the lamp is switched on and off- IPX4 waterproofing (resistant to splashing water but not to immersion)
- Phosphorescent reflector to find your lamp at a glance
- LOCK function to prevent accidental ignition of the lamp
- An adjustable headband that can be easily removed for cleaning
- Lantern function thanks to storage pouch
- HYBRID CONCEPT design for operation with three AAA/LR03 batteries (included) or the rechargeable CORE battery (not included)

PETZL's TIKKA headlamp also fits HELMET ADAPT and BIKE ADAPT 2 bindings. Convenient for use on your bike helmet or handlebars! Please note, however, that the lamp cannot be used in areas where there are traffic regulations. To be complemented, therefore, by compulsory bicycle lights.

Battery compatibility: alkaline, lithium or rechargeable Ni-MH.

## Caractéristiques

- Weight : 94 g
- Certification : CE
