PETZL TIKKA CORE 450 lumen headlamp with rechargeable battery. A compact device with three levels of white light and fixed or flashing red light.

Description

Be active day and night! Running in the moonlight, hiking in the evening, enjoying a bivouac... PETZL's TIKKA CORE headlamp is the perfect ally for your outdoor activities. We particularly appreciate its wide proximity lighting for good visibility even in total darkness.

- Three types of white light: MAX BURN TIME (up to 110 hours of runtime with rechargeable battery), STANDARD (up to 12 hours of runtime with rechargeable battery) and MAX POWER (up to 2 hours of runtime).
- Fixed red light (60 hours of autonomy) for better visibility in the dark without dazzling others, and flashing light for alerts (up to 400 hours of operation)
- A featherweight 84 grams
- A single button for choosing between lighting types
- A base plate that makes it easy to direct the light where you want it
- Battery level indicated by a signal when the lamp is switched on and off
- Rechargeable via micro USB type B plug
- IPX4 waterproofing (resistant to water splashes)
- Phosphorescent reflector for easy identification in the dark
- LOCK function to prevent unintentional switching on
- Adjustable, easily removable headband for easy maintenance
- Lantern function thanks to storage pouch
- HYBRID CONCEPT design for operation with three AAA/LR03 batteries (included) or the rechargeable CORE battery (not included)

Would you like to mount your TIKKA CORE on your bicycle helmet or handlebars? It's possible, thanks to its compatibility with HELMET ADAPT and BIKE ADAPT 2 mountings. However, it must be combined with regulation bicycle lights. The lamp is not certified for use in areas subject to the Highway Code.

Battery compatibility: alkaline, lithium or rechargeable Ni-MH.
