# PETZL LASER SPEED LIGHT ICE SCREW

*https://www.securhit.com/en/anchors-and-tie-back-systems/722-1136-broche-petzl-laser-speed-light.html#/1052-taille_g052aa-13_cm*

PETZL LASER SPEED LIGHT ice screw with integrated crank handle. An ultra-lightweight accessory with aluminum tubing. Three different lengths.

## Description

Need to break the ice to get ahead? PETZL's LASER SPEED LIGHT ice screw is your ally during your mountaineering sessions. Practical, it can be used to create a progression point, a belay point or a relay point.

- Lightweight aluminum tube
- Well-thought-out design of the steel bit with three teeth to simplify ice baiting
- Easy sharpening thanks to the bit's patented sharpening reserve.
- Compact foot for easier screwing into carved ice
- Handwheel incorporated into the spindle for better grip and a specially designed lever arm for faster screwing.

The PETZL LASER SPEED LIGHT ice screw comes in three sizes: 13 cm (91 g), 17 cm (100 g) and 21 cm (110 g). Each length is color-coded (yellow, blue or green).
