

CARABINER PETZL ATTACHE

https://www.securhit.com/en/carabiners-and-connectors/727-1147-mousqueton-petzl-attache.html#/1063-modele_m038-screw_lock_jaune

Pear-shaped PETZL ATTACHE screw-lock carabiner with rounded section in the rope friction area. A model with removable BAR bar to become unidirectional.

Description

The versatility of a piece of equipment tends to make life easier during mountain outings. PETZL's ATTACHE screw-lock carabiner makes maneuvering easier! With or without a clip, the choice is yours to ensure maximum safety, depending on the situation.

- A pear-shaped design with a rounded section for excellent rope sliding and better belaying fluidity
- A remaining H-shaped section to ensure a very good strength-to-weight ratio
- Good grip and secure locking with the SCREW-LOCK locking ring
- A visual indicator to check that the ring is closed
- Unintentional snagging avoided thanks to the spout and KEYLOCK system

The carabiner becomes unidirectional with the BAR accessory:

- The carabiner is more likely to be used in the long axis
- Greater ease of use
- The bar closes only when the ring is perfectly locked.

Available in two colors, yellow or gray.

Large axis resistance: 21 kN

Small axis resistance: 7 kN

Open finger resistance: 6 kN

Opening: 23 mm

Caractéristiques

- Material : Aluminium
- Certifications : CE EN 12275 type H, UIAA
- Matière barrette : Polyamide
