

PETZL DJINN AXESS QUICKDRAW

https://www.securhit.com/en/carabiners-and-connectors/730-1157-degaine-petzl-djinn-axess.html#/1073-modele_m060lc-turquoise_11_cm

Sturdy PETZL DJINN AXESS quickdraw for cliff climbing. STRING-protected webbing and large, curved-finger carabiners for durability and ease of use.

Description

Rock-climbing enthusiasts know the importance of safety if they want to climb with peace of mind. PETZL's DJINN AXESS quickdraw is a must-have for reliable progress.

Excellent durability

- Limited wear on the carabiner thanks to large contact zones with the rope and anchor
- Optimized rope routing
- STRING protection on the rope to prevent premature wear
- Light weight (approx. 100 grams) for excellent durability

Simplified clipping and unclipping operations

- Generous carabiners, suitable for large hands and gloved use
- KEYLOCK system to prevent unintentional snagging
- Excellent grip and easy rope clipping thanks to straight finger design
- Flat-back carabiner for a better grip
- Carabiners perfectly stabilized during clipping with STRING webbing protection

The PETZL DJINN AXESS quickdraw is available in three sizes: 11 cm (turquoise or violet), 17 cm and 25 cm (turquoise).

- Strength: 22 kN

- Large axis strength: 23 kN
- Small axis strength: 8 kN
- Open finger strength: 9 kN
- Carabiner opening: 24 mm for straight-finger model, 27 mm for curved-finger model
