Ultra-light PETZL ANGE L carabiner with MonoFil finger for mountaineering and cliff climbing. A standard-size accessory with Keylock system, available in two colors (blue or gray).

Description

Go on mountain adventures and climb for hours on long routes. Begin or improve your mountaineering techniques. Do you enjoy activities at height? The ANGE L carabiner from PETZL is an essential climbing accessory. We especially like its ultra-light weight, perfect for avoiding extra weight in your pack.

Practical use

- An incredibly lightweight accessory (34 g) for a standard size
- H-shaped design combines efficiency and performance with just a few dozen grams of weight

Easy clipping and unclipping

- Side-protected MonoFil finger (longer life than conventional wiregate carabiners)
- Keylock system designed to prevent unintentional snagging
- Direct removal of elements (such as gravel or snow) via the opening on the carabiner spout
- Flat-back design for easier handling
- Improved rope routing and abrasion resistance thanks to wide rope and anchor contact zones

PETZL's ANGE L carabiner is available in two colors, gray and blue.

Large axis resistance: 22 kN
Small axis resistance: 7 kN
Open finger strength: 10 kN

Opening: 26 mm
