PETZL SPLIT 25-liter rope bag for carrying up to 120 meters of rope. Practical equipment with adjustable shoulder straps, roll-up closure and removable tarpaulin.

Description

Set off on climbing sessions with the right equipment, the basis for safe sporting outings! The SPLIT rope bag from PETZL will soon be one of your must-haves. A first-rate piece of equipment with undeniable climbing advantages.

Fast, efficient storage

- 25-liter capacity for up to 120 meters of rope inside the bag
- Efficient rope storage (no need for coiling)

Ease of use

- Adjustable shoulder straps for carrying the bag in different ways: on the back, in front or over another backpack
- Compact size for freedom of movement
- Roll-up closure for maximum compactness
- Two types of closure: one on the top of the bag or another on the front (offering an additional handle)
- Two color-coded handles for easy movement between routes

Assured rope protection

- Reinforced bottom
- Removable 140 x 140 m TARP tarpaulin, in coated canvas, with four color-coded handles at the ends
- Ultra-resistant outer fabric

The bag is available in two colors: gray or red/orange.

Caractéristiques

- Weight : 600 g
