# PETZL QUICKSTEP STIRRUP

*https://www.securhit.com/en/pulleys-and-ascenders/744-etrier-petzl-quickstep.html*

Quick-adjust PETZL QUICKSTEP mono-hanger, ideal for artificial climbing. A practical piece of equipment for getting as high as possible and in complete safety at the progression point.

## Description

How do you get up to a point of progression and place a new point higher up without being able to climb naturally? PETZL's QUICKSTEP single stirrup serves as a step for artificial climbing. Practical, it's appreciated for its practicality and durability.

- DOUBLEBACK buckle for quick and easy adjustment of the monoshack.
- A carabiner that stays in position and a STRING to protect the strap from abrasion.
- A 3 mm hole in the buckle perfectly suited to the passage of a cord
- A free end with a ring, specially designed for attaching a climbing piton
- Adjustable elastic to secure the foot during ascent

The mono stirrup is your ally in making climbing sessions easier and safer!
