PETZL IKO HEADLAMP

https://www.securhit.com/en/headlamps/746-lampe-petzl-iko.html

PETZL IKO 350 lumen headlamp. Ergonomic, lightweight, comfortable headlamp with AIRFIT® headband and sleek, innovative design. Three lighting levels.

Description

Equipment that combines several technologies to bring you the best during your sporting activities? With PETZL's IKO headlamp, you can run with confidence, even at night. Its main advantage: imperceptibility, thanks to its incredible lightness and 350 lumens.

And so much more!

Innovative AIRFIT® headband

- Excellent weight distribution on the head and reduced contact zones for ultra-comfortable wear
- Hydrophobic material to prevent absorption of perspiration and rain
- Easy adjustment at the back of the headband
- Reflective elements on the back to be seen by others
- IPX4 water resistance (splash-proof)

Quality lighting

- A featherweight (90 grams) with 350 lumens of power
- Perfectly even light thanks to numerous LEDs
- Two beams: wide or mixed
- Three lighting levels: MAX BURN TIME of 6 lm (100-hour runtime), STANDARD of 100 lm (8-hour runtime) and MAX POWER of 350 lm (2-hour runtime)
- Up to 500 lm possible with battery operation

Easy to use

- HYBRID CONCEPT design: operation with three batteries (alkaline, lithium or rechargeable Ni-MH) or with the rechargeable CORE battery (not included)
- Various wearing options (around the neck, on a tent peg, on the head...)
- Possibility of converting the lamp into a lantern thanks to the storage pouch

- An indicator light for checking remaining energy, by switching the lamp on and off
- Two LOCK functions to prevent accidental ignition

The PETZL IKO headlamp is compatible with all PETZL helmets.

Caractéristiques

- Weight : 90 g
- Certifications : CE, UKCA
