PETZL IKO CORE 500 lumen headlamp with rechargeable battery. Lightweight, ergonomic design with AIRFIT® headband for a comfortable fit. Three lighting levels.

Description

Technology for your sports sessions at dusk, in the dark or early in the morning. The PETZL IKO CORE rechargeable headlamp combines power and lightness for your comfort during outdoor activities.

Innovation in an AIRFIT® headband

- Excellent distribution of the headlamp's weight on the head, with fewer contact zones for ultra-comfortable wear.
- Hydrophobic material to limit absorption of perspiration and rain
- Easy adjustment at the back of the headband
- IPX4-rated water resistance (splash-proof)

High-performance lighting

- Ultra-lightweight (79 grams) with a powerful 500 lumens
- Highly uniform light thanks to numerous LEDs
- Two beam patterns: wide or mixed
- Three lighting levels: MAX BURN TIME of 6 lm (100 hours of battery life), STANDARD of 100 lm (9 hours of battery life) and MAX POWER of 500 lm (2.5 hours of battery life)
- CORE battery for recharging via micro USB (equivalent to 900 cells for the life of the battery)

Extremely easy to use

- HYBRID CONCEPT design: operation with the supplied CORE rechargeable battery, but also possible with three batteries (alkaline, lithium or Ni-MH rechargeable)
- Various wearing options (around the neck, on a tent peg, on the head, etc.)

- Possibility of converting the lamp into a lantern thanks to the storage pouch
- An indicator light for checking remaining energy, by switching the lamp on and off
- Two LOCK functions to prevent accidental ignition

The PETZL IKO CORE headlamp is compatible with all PETZL helmets.

Caractéristiques
