

GO PETZL 8MM QUICK LINK

<https://www.securhit.com/en/carabiners-and-connectors/755-maillon-rapide-go-8mm.html>

GO PETZL 8MM quick link in galvanized steel for connecting a quickdraw webbing to an anchor, a TIPTOP belay carabiner or replacing a link on DJINN STEEL AXESS quickdraws.

Description

Connecting elements need to be extremely robust. That's why it's a good idea to choose heavy-duty equipment! PETZL's GO PETZL 8MM link is ideal for a variety of uses.

- Connecting a quickdraw strap to an anchor or a TIPTOP belay carabiner.
- replacing a link on DJINN STEEL AXESS quickdraws
- Long service life thanks to its large diameter (8 mm) and zinc-plated steel design
- Compatible with the K-LINK retaining accessory, allowing the link to be loaded along its long axis (avoiding the risk of overturning).

Long axis resistance: 30 kN

Short-axis resistance: 10 kN

Opening: 17 mm

Caractéristiques

- Diameter : 8 mm
- Material : acier zingué
- Certifications : CE EN 12275, EN 362, GB/T 23469
