90 cm Hose Strap with Fixing Buckle □ Transport Strap for Emergency Operations

### Description

The 90 cm hose strap with fixing buckle is designed to secure coiled hoses and facilitate handling and transport during emergency operations. The corrosion-resistant cam buckle ensures a secure and reliable hold, while the integrated handle allows for easy carrying on-site.

Made from 25 mm high-strength polyamide webbing, this strap provides durability, lightweight handling, and reliability even in demanding conditions.

#### Technical Specifications

- Total length: 95 cm
- Strap width: 25 mm
- Material: High-strength polyamide
- Fastening system: Corrosion-resistant cam buckle
- Handle: Integrated for easy carrying
- Use: Securing and transporting coiled hoses during emergency operations

#### Benefits

- Quick and secure fastening with corrosion-resistant cam buckle
- Easy transport with integrated handle
- Durable and robust strap suitable for intensive field use
- Ideal for coiled hoses in all emergency operations
