

PETZL CARITOOl TOOL HOLDER

<https://www.securhit.com/en/bags-and-storage/762-porte-materiel-caritool.html>

PETZL CARITOOl tool holder for organizing and transporting tools during mountaineering sessions, on ice or on long routes. Extremely lightweight and durable.

Description

A harness tool holder is an essential accessory for climbers! Whether it's for artificial climbing, mountaineering or working at height, it offers great practicality. In particular, it can be used to organize and transport a variety of tools and equipment, such as ice axes, pins, pitons... PETZL's CARITOOl tool holder becomes the ally of your climbing sessions.

- A lightweight, highly resistant accessory
- Sturdy materials for long-lasting durability
- A flattened shape on top for easy sorting of equipment (if there's a lot of it)
- A small hole at the top, created for easy passage of a cord, to connect to tools to avoid losing them
- Quick and easy attachment of an ice axe

The PETZL CARITOOl tool holder is not a piece of personal protective equipment. It is designed to support only the weight of the equipment (5 kg maximum).
