

MAILLON PETZL RAPIDE N°5

<https://www.securhit.com/en/carabiners-and-connectors/763-maillon-rapide-n5-petzl.html>

PETZL RAPIDE N°5 link for installing a recovery system on the FIFI hook. Made from galvanized steel, for strength and long-term reliability.

Description

Climbing, working at heights, rescue... Safe equipment allows you to enjoy climbing sessions or work in complete peace of mind. PETZL's RAPIDE N°5 maillon fits into the FIFI's groove (so it moves freely in the groove) to connect a lanyard. This accessory has several advantages:

- Oval shape for even load distribution
- Ultra-secure closure
- Galvanized steel design, a corrosion-resistant, robust and durable material.

Before use: check link appearance, function and legibility of marking.

Caractéristiques

- Material : acier galvanisé
