## Description

High-pressure lifting bags are used for lifting the heaviest loads. High-pressure lifting bags exert maximum force in a concentrated area, making them ideal when lifting rigid structures in tight places. Their unique structure also allows use in load shifting, heavy truck or aircraft recovery and different moving situations.

Key features & Benefits

- EN 13731 certified
- Stackable up to 2 bags
- Extra durable
- Thin design

## Caractéristiques

- Pressure : 8 bar
- Norme européenne : EN 13731
