PETZL MINO ACCESSORY CARABINER

https://www.securhit.com/en/carabiners-and-connectors/787-1394-mousqueton-accessoire-petzl-mino.html#/1210-modele_m007-sans_barrette

PETZL MINO accessory carabiner for connecting accessories to the harness. Available alone or with CAPTIV anti-turn bar and LOCK bar.

Description

Small items make all the difference when it comes to climbing for leisure or work. PETZL's MINO accessory carabiner is one of them! Small but handy, it can be used to connect a wide range of accessories to the harness: light tools, TOOLBAG pouch, gloves, etc. It can also be used as a toroidal link. It's also used as a mechanical torso-Prusik link for SRT/SRS techniques in pruning.

- Oval format for excellent grip and optimized positioning
- Smooth interior design for easy rotation
- Resistant to loads of up to 400 kilos
- 13 mm opening
- Keylock system to prevent accidental snagging
- Extremely easy to use, even with gloves
- Available on its own or with accessories: a CAPTIV-type bar to reduce the risk of overturning, and a LOCK-type bar to lock the finger.

Note: this equipment is not PPE (Personal Protective Equipment).
