PETZL PASO GUIDE 7.7 MM DOUBLE ROPE

https://www.securhit.com/en/ropes-and-cords/792-1416-corde-double-petzl-paso-guide-77-mm.html#/1232-modele_r22-50_m_gris

7.7 mm diameter PETZL PASO GUIDE double rope for technical mountaineering and ice climbing. Designed with the hydrophobic Guide UIAA Dry treatment.

Description

Technical mountaineering and ice climbing enthusiasts need equipment that is perfectly adapted to sometimes extreme conditions. The 7.7 mm diameter PETZL PASO GUIDE double rope is specially designed to resist humidity, while offering great strength.

- The slim diameter (7.7mm) makes it very compact.
- Very light equipment (40g/m)
- A 48-spindle sheath to create a smooth rope
- Enhanced durability and moisture resistance thanks to the hydrophobic Guide UIAA Dry treatment, which limits water absorption to below 2% (impregnated core before braiding the rope, then the complete rope).
- UltraSonic Finish with integral core and sheath ends (enhanced durability)
- Easy handling with Middle Mark marking
- EverFlex heat-treatment for excellent rope homogeneity
- Special ClimbReady coiling to preserve fibers and reduce the risk of twisting

The PETZL PASO GUIDE double rope is available in two colors, gray or orange.

Sheath percentage: 36%.
Number of falls factor 1.77: 7 (double), 20 (twin).
Static elongation: 8.5% (double), 6% (twin).
Dynamic elongation: 31% (double), 28% (twin).
Impact force: 6 kN (double), 10 kN (twin).
Construction: 48 spindles.

Caractéristiques

- Material : Polyamide
- Poids au mètre : 40 g
- Certifications : CE EN 892, UKCA, UIAA
