PETZL MAMBO single rope, 10.1 mm diameter, ideal for indoor and crag climbing. A flexible piece of equipment designed to offer good grip and great strength.

Description

Would you like to start climbing indoors or on crags with comfortable equipment? PETZL's MAMBO single rope combines great strength with a comfortable grip. With its generous 10.1 mm diameter and 40-spindle grip, it offers better control in belay devices. The rope offers many other advantages!

- Great flexibility to simplify slack giving in belay devices
- Middle Mark marking for easier maneuvering
- Greater durability thanks to its large diameter and thick sheath
- EverFlex heat-treatment for excellent rope homogeneity
- Special ClimbReady coiling to preserve fibers and reduce the risk of twisting
- UltraSonic Finish with a solid connection between core and sheath at the ends (enhanced durability).

PETZL MAMBO rope is available in turquoise and green.

Sheath percentage: 37%.
Number of falls factor 1.77: 7.
Static elongation: 8.5%.
Dynamic elongation: 34%.
Impact force: 8.5 kN.
Construction: 40 spindles.
