Ultra-light 9.2 mm diameter PETZL VOLTA rope, ideal for performance climbing and mountaineering. Easy-to-handle equipment for use on rock, snow or ice.

Description

Looking for performance in climbing and mountaineering? The VOLTA rope from PETZL is an ultra-lightweight, practical piece of equipment for use on rock, snow or ice. Comfortable, easy to handle and supple, this equipment promises safe outings.

- Compact size for easy transport
- Appreciable lightness for enhanced climbing performance
- Enhanced durability with Duratec Dry hydrophobic treatment (resistance to water, dirt and friction) and UltraSonic Finish (bonding of core and sheath at ends)
- Excellent flexibility, making it easier to take up slack in belay devices
- EverFlex heat treatment for excellent rope homogeneity
- Specific ClimbReady coiling to preserve fibers and limit the risk of twisting
- Easy handling thanks to 40-spindle grip and Middle Mark marking

PETZL's VOLTA rope is available in two colors, black and orange.

Sheath percentage: 42%.
Number of falls factor 1.77: 6 (single), > 20 (double), > 30 (twin).
Static elongation: 7.5% (single), 7.5% (double), 6% (twin).
Dynamic elongation: 33% (single), 30% (double), 26% (twin).
Impact force: 8.6 kN (single), 6.8 kN (double), 10.5 kN (twin).
Construction: 40 spindles.

Caractéristiques

- Material : Polyamide
- Poids au mètre : 55 g
- Certifications : CE EN 892, UKCA, UIAA
