PETZL PUSH 9 MM ROPE

https://www.securhit.com/en/ropes-and-cords/798-1456-corde-petzl-push-9-mm.html#/1272-modele_r40-40_m_orange

PETZL PUSH semi-static rope for independent caving and canyoning. 9 mm diameter for a good grip and excellent weight/durability ratio.

Description

Water activities require equipment that is both moisture-resistant and durable. PETZL's semi-static PUSH rope is particularly suited to caving and canyoning.

A good grip with :

- EverFlex heat treatment for excellent rope homogeneity
- Compactness thanks to its slim diameter
- Designed for excellent descent control

A practical, durable rope:

- Sturdy for safe descents
- Flexibility to increase rope durability
- A length with a built-in margin to compensate for rope shrinkage when first used

A ready-to-use rope:

- Specific ClimbReady coiling to preserve fibers and limit the risk of twisting
- UltraSonic Finish to secure the core and sheath at the ends (increasing the rope's durability)
- Easy identification of the middle of the rope with Middle Mark

PETZL's semi-static PUSH rope is specially designed for caving, canyoning and hauling. It is available in 4

different lengths (40, 60, 70 and 200 meters) and in two colors (white and orange).

Breaking strength: 20 kN.
Strength with figure-of-eight knot : 12 kN.
Impact force (factor 0.3): 4.3 kN.
Number of falls factor 1: 5.
Weight per metre: 55 g.
Construction: 32 spindles.
Sheath percentage: 46%.
Static elongation: 3.7%.

Caractéristiques

- Materials : polyamide, polyester
- Certifications : CE EN 1891 type B, UKCA, UIAA
