PETZL IRVIS 10-point crampons for glacier hiking, classic mountaineering and ski touring. Lightweight equipment with two fastening systems: LEVERLOCK UNIVERSEL and FLEXLOCK.

Description

Venturing into the mountains with the right equipment is essential. PETZL's IRVIS crampons are specially designed for glacier hiking, classic mountaineering and ski touring. Lightweight yet sturdy, they allow you to walk in complete safety.

- Lightweight, 790 g maximum
- Compact front blocks designed for optimal use with small to medium-sized boots
- Steel crampon design, a strong, deformation-resistant and durable material
- Guaranteed stability on hard snow thanks to the optimized arrangement of the 10 spikes
- Excellent load-bearing capacity on snow thanks to two wide front spikes
- ANTISNOW LEOPARD anti-clogging system to limit snow accumulation under the crampons
- Tool-free adjustment
- Two types of binding: UNIVERSAL LEVERLOCK for boots with rear overhang, FLEXLOCK for boots without front and rear overhang
- The ALPEN ADAPT system for modulating the various crampon components (front blocks, bars, anti-clogging device and fastening system).
- Compatibility with all front bindings to fit most shoes, with or without front overhang

PETZL IRVIS crampons fit sizes 36 to 45.
