

PETZL TORSO SLING

<https://www.securhit.com/en/harnesses-and-belts/806-bretelles-torse-petzl-pour-croll.html>

PETZL TORSE positioning suspenders for holding the CROLL belay device during rope ascents. Durable equipment with quick and easy adjustment.

Description

Quality equipment for safe and comfortable rope ascents in caving? PETZL's TORSE positioning suspenders are specifically designed to hold the CROLL central rope clamp in place.

- Simple design for ease of use
- Reliable, effective support for the CROLL belay device when ascending ropes
- Ultra-quick adjustment with DOUBLEBACK buckle
- Easy installation and removal of shoulder straps on the harness thanks to the quick-release buckle
- Durable, abrasion-resistant webbing
- DOUBLEBACK buckle made of aluminum (a light, rigid, corrosion-resistant material)

PETZL TORSE suspenders are available in orange.
