ENERGY ABSORBER PETZL ABSORBICA

https://www.securhit.com/en/lanyards-and-absorbers/812-absorbeur-d-energie-petzl-absorbica.html

Compact PETZL ABSORBICA energy absorber for reduced space on the harness. To be used with a JANE lanyard to create a fall arrest lanyard.

Description

Protecting yourself in the event of a fall is more than essential when climbing. The ABSORBICA energy absorber from PETZL is designed to ensure your safety, by combining it with a JANE-I or JANE-Y lanyard. In this way, you can create a fall arrest lanyard of up to two meters in length.

- Progressive tearing of the energy-absorbing webbing to minimize the impact force on the user.
- Can be used for weights between 60 and 140 kilograms
- Compact design to minimize discomfort during progression
- Wear protection for the absorber thanks to the resistant fabric pouch and simplified opening system

The ABSORBICA energy absorber from PETZL can be attached to the harness in two ways:

- With a carabiner held in place by a STRING accessory, supplied with the absorber, or with a MICRO SWIVEL to prevent kinking (in the event of numerous connections/disconnections).
- With openable RING OPEN ring or SWIVEL OPEN swivel for quasi-permanent connection

Length of energy absorber: 14 centimetres.

Caractéristiques

- Weight : 115 g
- Materials : polyester, polyamide
- Certifications : CE EN 355
