PETZL ABSORBICA VARIO LANYARD

https://www.securhit.com/en/lanyards-and-absorbers/815-longe-petzl-absorbica-vario.html

PETZL ABSORBICA VARIO single lanyard with VARIO adjustment system. Designed with an energy absorber, ideal for ensuring safety in the event of a fall.

Description

Being able to adjust your equipment gives you greater freedom when working at height. The ABSORBICA VARIO single lanyard from PETZL features an adjustment system and an energy absorber to ensure your safety with ease! This practical piece of equipment allows you to progress on a horizontal lifeline (rope or cable) or on a lifting platform, without the need for a split.

- Excellent shock absorption thanks to progressive tearing of the energy-absorbing webbing.
- Can be used for weights between 60 and 140 kilograms
- Compact dimensions made possible by the energy absorber's compact design.
- Abrasion protection for the absorber thanks to the resistant fabric pouch and its simplified opening system.

PETZL's ABSORBICA VARIO lanyard can be attached to the harness in two ways:

- With a carabiner held in place by a STRING accessory, supplied with the lanyard
- With an openable RING OPEN ring, if you prefer a quasi-permanent connection.

You can easily use a carabiner or MGO OPEN wide-opening connector with the lanyard.
