

## PETZL DART LEVERLOCK FIL CRAMPONS

<https://www.securhit.com/en/snow-and-avalanche/817-crampons-petzl-dart-leverlock-fil.html>

PETZL DART LEVERLOCK FIL crampons specially designed for ice climbing and dry tooling. Equipment with modular points to adapt to all types of climbing.

### Description

Is ice climbing and dry tooling your passion? Sturdy, durable equipment is a must for experienced mountaineers! PETZL's DART LEVERLOCK FIL crampons with modular front spikes are the perfect choice for safe outings.

- Serrated front points for solid engagement in ice
- Front points can be adjusted in length with a single screw (PETZL patent).
- Easy to switch between single- and double-point configurations (double-point for snow gullies and chutes, asymmetrical double-point for pure ice, short single-point for ice and long single-point for mixed).
- Ultra-stable support with 8 half-tips
- Nail layout designed for efficient hooking
- A third row of points facing backwards for pulling movements
- Steel crampon design, an ultra-strong and durable material
- LEVERLOCK FIL fastening system adjusts to boots with front and rear overhangs
- ANTISNOW DART anti-slush system to prevent snow accumulation
- Lightweight, 815 grams in single-tip version
- Asymmetrical front blocks for a perfect fit with technical mountaineering boots
- ALPEN ADAPT system for replacing components (front points, front blocks, bars, anti-clogging system and binding system)
- Compatibility with the FLEXLOCK binding system (FIL FLEX and BACK FLEX) for fitting crampons to boots without overhangs

PETZL's DART LEVERLOCK FIL crampons with modular front spikes are compatible with all front bindings for installation on boots with or without front overhang.
