

PETZL IRVIS HYBRID LL UNIVERSAL CRAMPONS

<https://www.securhit.com/en/snow-and-avalanche/819-crampons-petzl-irvis-hybrid.html>

PETZL IRVIS HYBRID LL UNIVERSAL hybrid crampons designed for ski touring and glacier approaches. Compact, lightweight and modular.

Description

Looking for quality accessories for ski touring and glacier approaches? PETZL's IRVIS HYBRID LL UNIVERSAL crampons combine lightness, compactness and modularity to ensure worry-free outings.

- Lightweight (570 grams with FIL FLEX)
- Aluminum heel and CORD-TEC connection in high-density polyethylene (HDPE)
- Compact front blocks and a flexible link system, making the crampons very compact when placed in their carry bag
- Steel front blocks, a strong, deformation-resistant and durable material
- 10 points for optimum stability on hard snow
- Two wide front points for excellent load-bearing capacity on snow
- ANTISNOW anti-clogging system to limit snow accumulation under the crampons
- UNIVERSAL LEVERLOCK binding to fit all boots with rear overhang
- ALPEN ADAPT system to modulate the various crampon components (front blocks, bars, heels, cords and fastening system)
- FIL or FIL FLEX fastening system to adjust crampons to all shoe fronts, with or without overhang

The crampons are supplied with a CORD-TEC carrying pouch.
