ARI Management Board CG - Breathing Apparatus Control Board with Card Holder and Timer

Description

Optimize team monitoring during operations with this breathing apparatus (BA) management board, designed for fire safety and emergency response professionals. Robust, compact, and easy to transport, this BA control board ensures efficient tracking of personnel during firefighting operations, smoke-filled environment interventions, industrial work, and specialized rescue missions. Designed for demanding professional use, this management board enables clear identification of BA wearers and real-time monitoring of cylinder pressures.

Complete BA Control Board with Accessories

The ARI (BA) management board CG comes complete with:

- 10 red ARICO 300 bar tags
- 10 yellow ARICO 200 bar tags
- 10 white ARICF tags
- 10 connectors for attaching tally keys
- Color stickers for quick identification of BA types
- 2 pencils
- 1 dry-erase writing surface
- 1 protective carrying case

Key Benefits of the BA Management Board

- Fast and visual tracking of breathing apparatus wearers
- Immediate identification of 200 bar and 300 bar cylinders
- Essential tool for coordinating intervention teams
- Easy to use in the field or at command post level
- Compact format with protective case for easy transport

Technical Specifications
