Mountaineering shoes TRANGO TOWER GTX

Description

The TRANGO TOWER GTX is a lightweight, comfortable shoe designed for hiking, via ferrata and backpacking, even with a heavy load.

Its upper structure is reinforced with waterproof monofilament nylon fabric and Honey-Comb Guard abrasion-resistant zone technology, for greater durability. In addition, it features a GORE-TEX lining that guarantees breathability and waterproofing for greater walking comfort.

Technical informations :

- Water-repellent, high-tech nylon 6.6 upper with Honey-Comb Guard and FlexTec 3 abrasion zones.
- Microfiber and Light PU thermo-adhesive reinforcements for reduced weight.
- Waterproof, breathable GORE-TEX lining.
- High-density 5mm nylon insole with increased thickness in the rear torsion zone.
- Vibram outsole with Impact Brake System on toe and heel for improved grip.
- Cramponable heel.
- 3D Flex system for better ankle support and mobility on steep terrain.
- Differentiated lacing system between upper and lower part for optimum comfort.

Caractéristiques

- Poids de la paire : 1400g
