Safety harness BEAL DRAGON

Description

Lightweight DRAGON safety harness specially designed for rescue operations and work at height.

Featuring sliding thigh straps for better positioning and comfort: each of the thigh straps is color-coded, yellow on the left and black on the right for optimized donning.

Technical features:

- 2 EN 358 textile side attachment points.
- 1 yellow rear attachment point on waistband for emergency evacuation.
- 4 equipment holders, 2 tool loops and 6 textile loops for attaching a variety of work tools.

All connection points are identified in yellow.

Harness colors: Yellow and black.
