

## AVALANCHE PROBES ARVA ACCESS 240

<https://www.securhit.com/en/snow-and-avalanche/885-sonde-avalanche-arva-access-240.html>

Avalanche probes ARVA ACCESS 240

### Description

The ACCESS 240 probe is quick and easy to use for precisely locating avalanche victims.

The probe consists of a 240 cm long, durable aluminum tube, divided into 6 segments, each 40 cm long and 11 mm in diameter.

The FLASH LOCK locking system enables the probe cable to be tensioned in a single movement for rapid use. Conical inserts at the end of the tubes and the pull handle make it easy to deploy and tension in an emergency situation.

Technical specifications :

- Strong, durable 7001 T6 aluminum tubes
- Ultra-lightweight Polyamide tension cord
- FLASH LOCK locking system allows quick insertion of the locking knot for rapid locking
- Locking handle for easy probe tensioning
- Precise depth graduations
- Pouch with avalanche rescue step-by-step instructions

## Caractéristiques

- Weight : 190g
- Length : 240cm
- Composition : Aluminium 7001 T6
- Diamètre du tube : 11mm
