Avalanche probe ARVA GUIDE 260

### Description

The ARVA GUIDE 260 is the avalanche probe for mountain professionals.

This model combines strength and search accuracy thanks to its 7 strands of 13mm diameter and its RACK LOCK system. This locking system allows easy and instantaneous assembly by simply pulling on the locking handle.

Tensioning is provided by a stainless steel cable.

Technical specifications :

- Strong, durable 7001 T6 aluminum tubes
- Probe tensioned by stainless steel cable
- RACK LOCK locking system
- Locking handle
- Conic inserts to easily assemble the tube segments
- Precise depth graduations
- Carrying case with indications of avalanche rescue stages

- Complies with UIAA standard 157 - Avalanche rescue probes
