COBRA II UNICORE Rope - DRY COVER

Description

The COBRA rope is light, fluid and versatile, ideal for long routes, big wall and mountaineering.

It features a low impact force to take the strain off anchor points and a sheath thick with high resistance to abrasion.

Fitted with Unicore technology, which keeps the core and sheath together in the event of the sheath being cut or torn.

This rope is equipped with Dry Cover technology, which limits water absorption in the sheath thread and improves its fluidity and resistance.

Caractéristiques

- Force de choc : 510 daN
- Nombre de chute : 16
- Pourcentage de gaine : 41 %
