OPERATOR CONVERT Jacket MONTURA

Description

The OPERATOR CONVERT jacket is designed for professionals in ground and helicopter rescue.

Made from resistant, breathable polyester fabric, it features segmented retro-reflective stripes for added safety.

The OPERATOR CONVERT jacket features removable sleeves, allowing it to be transformed into a vest for greater flexibility and comfort.

The large number of pockets and attachment options ensures that all important tools and equipment are always within the rescuer's reach.

Features:
- Contrast mesh.
- Center front zipper opening.
- Zipped hand pockets, velcro inside pockets and pruning shear pockets.
- Front mesh radio pockets with velcro closure and cable opening.
- Small zipped sleeve pockets with antenna opening.
- Zipped back pocket.
- Elasticated collar and waistband for a secure fit.
- Removable sleeves with zip.
- Elastic chest loop for securely attaching your PTT radio.
- Velcro openings on chest for attaching a harness.
