

MARINE FIRE HOOD WITH ELASTIC FLAP

<https://www.securhit.com/en/protection-tete/90-cagoule-de-feu-marine-avec-rabat-elastique.html> Fire hood with elastic flap

Description

This fire bonnet has a mouth and nose protection that can be retracted as needed thanks to its elasticated feeder. It also has an insert at the top of the head for better heat dissipation.

Double layer knit

- A yoke on the top of the head: non-flammable, highly breathable knit.
- Elastic under the tunnel (to improve the positioning of the equipment on the face)
- Soft aramid lining for comfort when in contact with the skin
- Wide ruffle that covers the shoulders and upper chest
- Flat seams for greater comfort
- Iron-on marking resistant to washing up to 95° C

- Excellent wicking of perspiration
- Reduced heat stress
- Protection against heat and flames
- Antistatic
- Lightweight.
