

MARINE FIRE HOOD WITH ELASTIC FLAP

<https://www.securhit.com/en/head-protection/90-cagoule-de-feu-marine-avec-rabat-elastique.html>

Navy Fire Hood with Elastic Face Flap - Flame-Resistant Thermal Protection

Description

The navy fire hood with elastic face flap is a personal protective equipment (PPE) designed to provide effective protection for the head, face, and neck against heat, flames, and thermal hazards. Suitable for high-risk environments, it ensures optimal safety, comfort, and breathability during operations. Thanks to its ergonomic design and technical materials, this flame-resistant hood offers reliable protection while remaining fully compatible with respiratory protective equipment.

Fire hood with retractable face protection

This fire hood features a retractable mouth and nose protection panel, designed with an elastic system that allows quick adjustment depending on operational needs.

A breathable, flame-resistant mesh panel on the top of the head improves heat dissipation and enhances thermal comfort during use.

Technical design and user comfort

- Double-layer knit construction for enhanced protection
- Soft aramid inner layer for increased comfort against the skin
- Flat seams to reduce friction and irritation
- Elastic tunnel for improved fit and compatibility with PPE (mask, helmet)
- Extended bib covering the shoulders and upper chest for added protection

Thermal performance and breathability

- Excellent moisture wicking properties
- Reduces heat stress
- Effective protection against heat and flames
- Antistatic properties

- Lightweight and breathable design for prolonged use

Durability and maintenance

- Heat-applied labeling resistant to washing up to 95°C
- Durable construction for intensive use

Technical specifications

- Size: one size fits all
- Color: navy
- Material composition: 70% aramid | 28% FR viscose | 2% antistatic fibers

This fire hood with elastic face flap is an essential protective solution for professionals exposed to high-temperature and fire-related risks.

Caractéristiques

- Size : Unique
- Materials : 70% aramide | 28% viscose FR | 2% fibres antistatiques
- Colour : Marine
