Jacket FORCE MAGLIA MONTURA

Description

The FORCE MAGLIA jacket is designed for climbing, mountaineering and all outdoor activities, whatever the season.

Made from a tough, breathable thermal fleece fabric, it ensures a comfortable body temperature. In addition, its bi-stretch fibres offer great flexibility of movement for progress in difficult terrain. The DWR water-repellent treatment on the shoulders provides extra protection in the event of light rain.

Features:
- Bi-stretch polyester fleece thermal fabric.
- Stretch DWR nylon shoulder fabric.
- Partially lined with moisture-wicking mesh.
- Central zip opening.
- 2 zipped chest and hand pockets.
- Elasticated waistband.

Caractéristiques

- Weight : 440 g
