

SKED BASIC RESCUE SYSTEM MULTI-PURPOSE STRETCHER

<https://www.securhit.com/en/stretchers-and-rescue-carriers/919-brancard-sked-basic-rescue-system-orange.html>

SKED BASIC RESCUE SYSTEM multi-purpose stretcher

Description

Evacuation stretcher made from a high-strength polyethylene sheet and adjustable straps, specially designed for evacuating victims from confined or narrow spaces. The stretcher is shaped and stiffened by tensioning the adjustable straps.

The stretcher can be hoisted horizontally or evacuated vertically in industrial or urban environments. Once in shape, the plate protects the victim and can be dragged along the ground, over soil, sand or even asphalt.

The stretcher is supplied complete with shaping straps, pull strap, handles, carabiner and portable Cordura backpack.

Optional winch fuse available on request:

- 8mm webbing fuse
- Length 200mm
- Red sewing thread
- Breaking load 135 kg (138 +/- 5 kg)
