4mm guide line with 4 beads every 20m

### Description

Recognition guide line in 4mm diameter braided rope.

Equipped with fluorescent-colored beads, this guide line enables SCBA wearers to work in the safest possible conditions in smoky environments.

Made from high-tenacity Aramid, it withstands very high temperatures (up to 500°C).

Technical features :

- Progress markers, 4 beads (3 + 1), every 20m
- Fluorescent-colored beads, diameter 14mm
- Retroreflective distance flag at each group of beads

Models available:

- Guide line length 200 m / Weight 1.6kg
- Guide line length 300 m / Weight 2.4kg
- Guide line length 400 m / Weight 3.2kg
- Guide line length 500 m / Weight 3.9kg
- Guide line length 600 m / Weight 4.7kg
- Guide line length 800 m / Weight 6.3kg
- Guide line length 1000 m / Weight 7.8kg
- Guide line length 1500 m / Weight 11.7kg

ON REQUEST :

- All lengths

- Distance between beads modifiable
- Single color beads
- No distance flag

## **Caractéristiques**

- Composition : Aramide haute ténacité
