

## FOLDING SPREADER CART SDC03

<https://www.securhit.com/en/depollution-nrbc/929-chariot-d-epandage-pliable-sdc03.html>

Foldable spreader cart

### Description

The SDC03 folding spreader cart is designed for easy spreading of powdered sorbent in the event of fuel or hazardous chemical leaks.

Easy to use and space-saving, it is suitable for use with all forms of common absorbents.

Technical specifications:

- Easily adjustable flow rate and spreading width (max. 40cm).
- Height-adjustable handle with stop.
- Sliding foot to ensure cart stability during filling.
- Even spreading guaranteed by a paddle feeder.
- Special transmission allows sorbent to be spread only in forward gear. Reverse gear automatically stops spreading.
