GOLDEN TOP PLUS full body harness

### Description

The GOLDEN TOP PLUS harness is a complete rope access harness with functional features for suspension and work positioning.

Its ventral attachment features two concentric rings: one steel ring for connecting lanyards and equipment, the other for connecting the chest harness and ventral blocker.

The GOLDEN TOP PLUS is fitted with the Nexum carabiner for maximum sternal comfort: keylock closure and 3Lock locking, anti-rotation bar that can be opened for insertion of the Turbochest ventral blocker.

Technical specifications :

- STS opening buckles mounted on the thighs.
- 5 steel attachment rings: sternal and dorsal for fall arrest, ventral for suspension, lateral for support and restraint.

Sizes available :

- S-L  
Waist 70-110 cm / Thigh 45-65 cm / Height 55-75 cm / Weight 2040 g.
- L- XXL  
Waist belt 80-130 cm / Thigh circumference 55-75 cm / Height 65-85 cm / Weight 2140 g.

This harness is fitted with an NFC TRACK chip for digital identification.
