Red PVC Storage Case for Sherpa Backpack Frame

### Description

The red PVC storage case for Sherpa backpack frame is a practical and durable accessory designed for carrying and organizing equipment during field operations. Compatible with Sherpa backpack frames, it allows users to keep essential gear easily accessible while ensuring effective protection in demanding environments. Made from PVC-coated fabric, this storage case is durable, washable, and easy to maintain, making it ideal for intensive professional use.

Its Velcro mounting system allows for quick and secure attachment to the backpack frame, ensuring excellent stability during transport.

The heavy-duty YKK No.12 double zipper closure provides reliable protection and quick access to the stored equipment.

Thanks to its robust and functional design, this backpack frame storage pouch is an ideal solution for professionals working in emergency response, rescue operations, and challenging field environments.
