

INSTANT COLD PACK

<https://www.securhit.com/en/first-aid/987-poche-de-froid-instantane.html>

Instant cold pack by unit.

Description

Cold pack designed for instant pain relief, particularly useful in emergency care.

Effective for around 20 to 30 minutes (depending on temperature conditions), it is indicated for sprains, bruises, strains, hematomas and headaches.

Activated at the touch of a button, it cools rapidly.
No prior refrigeration required.
